HIPAA Unencrypted Communication Authorizations

Electronic mail (email) and text messaging are common forms of communication, and can be utilized to communicate with your physician and your care team. It is important for you to understand that unencrypted email and text messaging are not secure communications. This means there is a potential risk that messages containing your protected health information may be intercepted by a third party. Encryption is the process of making information unreadable, unless you have the password or key to decrypt the information. BJC does not encrypt text messages, and we cannot guarantee that all email messages will be encrypted.

By initialing below and signing this authorization, I understand and accept the conditions outlined above. I authorize BJC Medical Group to send unencrypted communications to the email address and/or phone number listed below.

I authorize BJC Medical group to:

Initial _____ Send email to the following address: _____
